

## iNotes 8 Settings

- The latest version of Lotus Notes, the college's e-mail system, requires:
- Windows XP or Vista, or Macintosh 10.4 or 10.5 operating systems.
- Internet Explorer 6 or 7, or Mozilla Firefox 2 browsers.
- You will need to allow all pop ups from [stkate.edu](http://stkate.edu), or turn off all pop up blockers.
- Select **Allow** if you are prompted to run a script or install software from International Business Machines Corporation.

- **If you choose Deny, you will not be able to get your e-mail properly.**
- We recommend clicking the "Remember this decision" option to automatically accept all required plugins.
