

Associate Degree Programs at the College of St. Catherine: Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at St. Catherine's will have different requirements, and a separate handout is available in the St. Paul College counseling center. St. Catherine admission counselors are more than happy to meet with you to evaluate your transcripts, explain how your courses meet our St. Catherine requirements, and make recommendations for registration at St. Paul College.

Previous college coursework must be at the college level (1000-level or higher) and a grade of C- or better must be earned. Pass grades are accepted. There is not a maximum number of credits that will transfer to St. Catherine; however, residency requirements will apply.

Applying to Associate Degree Programs

Applications to associate degree programs at St. Catherine operate on a rolling admission basis, which means that applications are processed as they are received. A minimum 2.0 GPA is required. Students must submit an application, application fee, and official transcripts from each high school and university. ACT, SAT, or PSAT scores are not required for admission to associate degree programs. Please note that some programs have other admission deadlines that need to be met; please contact St. Catherine for further information.

Transfer Scholarships for Associate Degree Students

Scholarship for students who know a St. Catherine graduate, \$300. Referral card required with application.
DupliKate Scholarship, \$2000. Daughter or granddaughter of alum, annually renewable.
Family Scholarship, \$1000 per family member. Sister, mother, etc., renewable while attending simultaneously.

Students are not limited to one scholarship award, and many other sources of financial aid are available (scholarships, grants, loans, and student employment). Contact St. Catherine's to find out how a private education can be affordable for you and to meet with a financial aid counselor.

Health Information Specialist Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Health Information Specialist Coursework

Health information specialists collect, organize, analyze and disseminate health information in numerous health-related settings. The health information specialist ensures the quality of medical records by verifying their completeness, accuracy and proper entry into computer systems. They use computer applications to assemble and analyze health information as well as in coding diagnoses and procedures from patient records for reimbursement and research. You will use computerized systems to become competent in five areas: information manager, coding specialist, quality assurance specialist, supervisory manager and cancer registry specialist.

You can earn your associate of applied science degree in the health information specialist program in a way that best fits your needs. Full time students take two years to complete their studies. Clinical experience begins the first term, and students take liberal arts and science and health information specialist courses concurrently. Part time students can use the Extended/Preprofessional Program option and take about three years to complete their studies. Students start by taking liberal arts and science courses before beginning health information specialist courses.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. Associate Nursing Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Associate Nursing Coursework

The associate degree program, located on the College's Minneapolis campus, is offered in four semesters. Students enter the day section in the fall semester and the evening/weekend section in winter semester. A mobility section (licensed practical nurse only) curriculum is offered in the evening/ weekend format and begins in winter semester, continues through the summer and is completed the following fall semester. While the curricular outcomes are the same for all three sections, the mobility curriculum is built on competencies attained through licensed practical nursing education. Evaluation of curricular outcomes is assessed through several quantitative and qualitative measures.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. Ophthalmic Technician Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Ophthalmic Technician Coursework

In the Ophthalmic Technician Program, you will learn through classroom lectures and discussion, laboratory demonstrations and practice, and clinical experiences in eye clinic settings in the Twin Cities area. The curriculum includes 30 semester credits of liberal arts and sciences courses and 40 semester credits of ophthalmic courses. Approximately 1,000 hours of supervised clinical experience is built into the curriculum and students will rotate through various eye clinics in the Twin Cities.

Upon graduating at the end of the two-year program, you will be eligible to take the Certified Ophthalmic Technician (COT) certification examination administered by JCAHPO (Joint Commission on Allied Health Personnel in Ophthalmology). The COT certification is the intermediate level of expertise and represents an excellent balance of knowledge and skills. In its career ladder JCAHPO has also established a certification pathway for COTs, who have been in the profession for three years, to take the examination for the advanced level of certification (COMT).

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. Occupational Therapy Assistant Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Occupational Therapy Assistant Coursework

As a Certified Occupational Therapy Assistant, you will make a difference in people's lives. Occupational therapy assistants work in collaboration and cooperation with registered occupational therapists to help people engage in human occupations or "day to day" activities that contribute to their physical, psychological and spiritual health, well-being and overall quality of life.

You can earn your associate of applied science degree in the Occupational Therapy Assistant program in a way that best fits your needs. Full-time students take two years to complete their studies. Students take liberal arts and science and OTA courses concurrently both years, and Level II Fieldwork is completed in the same semester following the appropriate course work in accordance with the curriculum design and the program policies. Part-time students can use the Extended Program option. Students start by taking liberal arts and science courses before beginning OTA courses. OTA students in this option take about three years to complete their studies.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. St. Catherine admission counselors are more than happy to meet with you to evaluate your transcripts, explain how your courses meet our St. Catherine requirements, and make recommendations for registration at St. Paul College.

Previous college coursework must be at the college level (1000-level or higher) and a grade of C- or better must be earned. Pass grades are accepted. There is not a maximum number of credits that will transfer to St. Catherine; however, residency requirements will apply.

Applying to Associate Degree Programs

Applications to associate degree programs at St. Catherine operate on a rolling admission basis, which means that applications are processed as they are received. A minimum 2.0 GPA is required. Students must submit an application, application fee, and official transcripts from each high school and university. ACT, SAT, or PSAT scores are not required for admission to associate degree programs. Please note that some programs have other admission deadlines that need to be met; please contact St. Catherine for further information.

Physical Therapy Assistant Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Physical Therapy Assistant Coursework

The College of St. Catherine Physical Therapist Assistant (PTA) Program prepares you to work as a skilled clinical practitioner who performs physical therapy interventions and related duties under the direction of licensed physical therapists. As a PTA, you will perform interventions intended to help people of all ages recover physical function lost through diseases, injury or other causes.

As part of your education you will have a variety of clinical experiences that may include acute care, skilled nursing facility/rehabilitative, or outpatient settings. The program has an extensive clinical network in the immediate Twin Cities area, the state and nationally. The PTA program and the Doctor of Physical Therapy program (DPT) are housed together, providing you the opportunity for collaborative learning including visits to the cadaver lab, blended tutorial learning and various lab activities. This setting provides invaluable learning of each other's roles in the clinical setting.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. St. Catherine admission counselors are more than happy to meet with you to evaluate your transcripts, explain how your courses meet our St. Catherine requirements, and make recommendations for registration at St. Paul College.

Previous college coursework must be at the college level (1000-level or higher) and a grade of C- or better must be earned. Pass grades are accepted. There is not a maximum number of credits that will transfer to St. Catherine; however, residency requirements will apply.

Applying to Associate Degree Programs

Applications to associate degree programs at St. Catherine operate on a rolling admission basis, which means that applications are processed as they are received. A minimum 2.0 GPA is required. Students must submit an application, application fee, and official transcripts from each high school and university. ACT, SAT, or PSAT scores are not required for admission to associate degree programs. Please note that some programs have other admission deadlines that need to be met; please contact St. Catherine for further information.

Radiography Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Radiography Coursework

As a radiographer, you will work in a variety of settings, including hospitals, clinics and outpatient centers. You will acquire critical-thinking skills and an excellent understanding of human anatomy, interact with a variety of patients, gain experience in cutting-edge radiologic technology, and develop skills in safe radiologic procedures, body positions and patient care. You may specialize in many different areas immediately after graduation, such as computerized tomography, magnetic resonance imaging and vascular procedures. You could also continue your education in fields such as ultrasound, nuclear medicine and radiation therapy.

You can earn your associate of applied science degree in the Radiography program in a way that best fits your needs. Full-time students take two years to complete their studies. Students take liberal arts and science and radiography courses concurrently. Part-time students can use the Extended Program option and take about three years to complete their studies. These students start by taking liberal arts and science courses before beginning radiography courses.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.** Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. St. Catherine admission counselors are more than happy to meet with you to evaluate your transcripts, explain how your courses meet our St. Catherine requirements, and make recommendations for registration at St. Paul College.

Sonography Transfer Guidelines for Saint Paul College

About the College of St. Catherine's Associate Degree Programs

The College of St. Catherine is a national leader in providing high quality associate degree programs and certificates in health care. Areas of associate degree study on the College's Minneapolis campus include: Nursing, Occupational Therapy Assistant, Physical Therapist Assistant, Radiographer, Sonographer, Ophthalmic Technician, Health Information Specialist, Phlebotomist, Coding Specialist and more. Look for more information located in the private college filing area of the St. Paul College counseling center.

Sonography Coursework

As a sonographer, you will use ultrasound imaging equipment to view and evaluate many parts of the human body. You will examine organ systems and vascular structures to detect and assess pathological changes. You also will assess the well-being and progress of pregnancies. Sonographers' work is highly technical and involves a high degree of independence and responsibility, as well as the ability to relate comfortably to patients and to communicate complicated information clearly to physicians.

Upon completion of the program, you are awarded an associate of applied science degree and are eligible to take the national registry exams in Ultrasound Physics, Abdominal Ultrasound, and Obstetrical and Gynecological Ultrasound.

Transferring Credit

Please review the attached Course Selection Guide to ensure you are choosing St. Paul College courses that will fulfill St. Catherine's associate degree requirements. **This course guide is intended only for students pursuing an associates (2-year) degree.**

Students planning to attend a baccalaureate (4-year) program at CSC will have different requirements, and a separate handout is available in the St. Paul College counseling center. St. Catherine admission counselors are more than happy to meet with you to evaluate your transcripts, explain how your courses meet our St. Catherine requirements, and make recommendations for registration at St. Paul College.
